25X1

This model has been prepared in response to an NPIC Imagery Exploitation Group requirement. Detailed analysis and specifications were provided by the requester.

DESCRIPTION

This model depicts the FENCER A, a Soviet variable-geometry-wing prototype aircraft. It is a product of the Sukhoy Design Bureau and was first observed on KEYHOLE photography [Redacted] at Ramenskoye Flight Test Center.

25X1
25X1

The model shows such details as the side-mounted engine inlets, a moveable "swing wing", an all-flying tail or stabilator, ventral fins, and side by side seating. No armament hardpoints or wing control surfaces such as ailerons or spoilers are portrayed.

This model was prepared because of the high interest in Soviet prototype aircraft.

Declass review by NIMA / DoD

NOTICE

This report announces the completion of a new, three-dimensional scale model which may be used as a visual aid for briefing or for aiding the analyst in his study of this particular target. The model is available on short-term loan from NPIC to authorized personnel. Requests for loan should be directed to the Briefing Coordination Section, Visual Presentations Branch, Imagery Services Division, Production Services Group, NPIC, Room 4N200, [Redacted]. The borrower must arrange for transporting the model in accordance with the appropriate security regulations.
